### **DETAILED ACTION**

#### ***Terminal Disclaimer***

1. The terminal disclaimer filed on 12/02/10 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent 6,853,491 has been reviewed and is accepted. The terminal disclaimer has been recorded.

#### **EXAMINER'S AMENDMENT**

2. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this Examiner's amendment was given in a telephone interview with Gerow D. Brill on 06/17/11. The application has been amended as follows:

#### **In the claims:**

Claims 1-7. (cancelled).

Claim 15. (cancelled).

Claims 20-37. (cancelled).

#### **REASONS FOR ALLOWANCE**

3. Claims 8-14, 16-19, 38 and 39 are allowed. The following is a statement of the Examiner's reasons for allowance. Regarding claims 8, 38 and 39, the prior art fails to disclose

an optical system for presenting virtual optical images of an image source outputting light in a forward direction at a desired apparent distance comprising components (a) through (f) as claimed. The claimed invention is therefore considered to be in condition for allowance as being novel and non-obvious over prior art.

4. The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 USC 102 or 103 would be improper. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
